POSTURE SPRINGING

Posture Springs are interlinked to support one another to share the body weight evenly and provides the firm optimum support, which holds the body in its natural posture essential for good comfortable sleep. In addition, the unique triangular formation takes vertical and horizontal pressures without distortion.

LUXURIOUS QUILTED PILLOW TOP

Luxurious and thick quilted pillow top with high quality Fire Retardant and Anti-Mildew Treated damask ticking, together with super soft foam and high resilient foam to provide the sumptuous sleeping comfort.

EDGE STABILIZER

Made from 3.5mm diameter high carbon steel wire and attached to the firm edgeland to reinforce the overall edge support, resulting in firmer sleeping and sitting edges. It also prevents sagging other spring mattresses.

DURABILITY TEST

This is to ensure the springing system does not distort after minimum 200,000 passes of a 224lbs (100kg) steel roller. The British Standards Institute test calls for only 60,000.

FIRE-RETARDANT TREATED FABRIC

Complies with BS-7177 and BS EN597-2:1995 International Fire Standards.

NonFlip

NON-FLIP MATTRESS

Using the latest technology to make the housekeeper works easier, the same surface of the mattress can be use continuously without flipping over. This will reduce the housekeeper work load and time as mattresses are heavy especially thick mattress.

10 Years Warranty

PRODUCT WARRANTY

Slumberland provides 10 years product warranty against manufacturing defects with free repair or replacement for the first 2 years. There will be prorated warranty for the remaining 8 years.

The Mattress Companion SLUMBERLAND'S POSTURE SPRING DIVAN

A good divan is as important as a good mattress

- The springs act as a "large shock absorber" that increases the life span of mattresses by 68%. (Reported by AIV)
- Unique "Springs-On-Springs" effect provides extra sleeping comfort.
- **Castor and Glide**
To ensure that the bed can be moved around with a minimum effort.

SAFE - TECH DIVAN

The unique Shock Absorbing Firm Edge (SAFE) technology are made from interlinked Posture Spring and further enhance with the Tropical Hardwood Timber Frame to ensure the highest level of spring effect for more comfortable sleeping pleasure.
